HKSTP Leads 30 Companies to Showcase Digital Health and Medical Innovative Solutions at Hong Kong International Medical and Healthcare Fair

Exhibition featuring Six Projects: Technologies for Admission, Consultation, Surgeries, Rehabilitation, Wards, and health monitoring at home

Key Takeaways:

- HKSTP led 30 park companies to showcase cutting-edge medical I&T solutions at the Hong Kong International Medical and Healthcare Fair, with an exhibition area themed “Digital Health and Smart Hospitals”.
- The park companies host two seminars during the Medical Fair, exploring the use of AI and data governance for future patient care and winning markets with high quality silver technology.
- HKSTP is committed to promoting Hong Kong as an International Health and Medical Innovation Hub, facilitating I&T companies to expand their international network.
-

(Hong Kong, 28 May 2025) – Hong Kong Science and Technology Parks Corporation (HKSTP) led 30 park companies to participate in the Hong Kong International Medical and Healthcare Fair (Medical Fair), showcasing a wide range of cutting-edge medical technologies and market-ready solutions to global experts, investors, corporates, and industry partners. It helped attract investment and collaboration opportunities while reinforcing HKSTP’s commitment to establishing Hong Kong as an International Health and Medical Innovation Hub.

Hong Kong’s forward-looking Life and Health Technology sector is capturing global attention

As one of the flagship programmes in the fourth International Healthcare Week, the Medical Fair is the city’s premier industry event. Held from 26 to 28 May at the Hong Kong Convention and Exhibition Centre (HKCEC), HKSTP actively supported its park companies in presenting their latest innovations, fortifying Hong Kong’s leading position in medical innovation.

Albert Wong, CEO of HKSTP, said, “HKSTP is dedicated to driving the development of medical and life and health technology, leading technological innovation, and establishing a platform for I&T companies to expand their international networks. This year’s Medical Fair focused on the latest development trend of digital health and smart hospitals. Through this significant event, we hope to demonstrate Hong Kong’s medical I&T achievements to the world while fostering global partnership and seizing new possibilities, to strengthen Hong Kong’s role as an International Health and Medical Innovation Hub.

Six projects to experience smart hospitals

This year, HKSTP has set up an exhibition area themed "Digital Health & Smart Hospitals," featuring six major projects, including technologies to enhance patient admission processes, tools for consultation, surgeries, rehabilitation, patient care in wards, and continuous monitoring at home. It offers multiple AI-empowered smart medical solutions and innovative technologies to enhance healthcare quality, operational efficiency, and user experience.

Highlights include the HandTasker, an exoskeleton rehabilitation solution for stroke patients, developed by Hopebotics. A handheld breath ketone analyzer developed by AusMed, which accurately measures ketones within three minutes from a single breath, assisting diabetes patients in monitoring ketosis and weight control. An AI health monitoring app developed by PanopticAI, which uses a smartphone or tablet camera to monitor users' health data, such as heart rate, respiratory rate, and blood pressure.

The park companies also host seminars during the Medical Fair to explore how to apply AI and data governance in the medical and healthcare fields, as well as strategies to stand out in the Silver market. HKSTP houses more than 500 companies specializing in healthcare technology transformation, with 75 focused on developing gerontechnology solutions.

HKSTP will continue to attract overseas, the Mainland, and local companies, fostering industry collaboration, accelerating commercialization of hospital and healthcare technologies solutions, and providing platforms for solution testing. Designated personnel will be appointed to coordinate relevant work, facilitate resource integration and industry connections, thus strengthening the medical technology ecosystem.

Appendix I: 30 companies exhibiting at the Hong Kong International Medical and Healthcare Fair

1.	365 technologies holding limited
2.	Applied Technology Group Limited
3.	Asia Pacific Medical Technology Development Co. Ltd.
4.	AUISET Biotechnology Company Limited
5.	AusMed Global Limited
6.	Belun Technology Company Limited
7.	BNET-TECH Company Limited
8.	Bone's Technology Limited
9.	BrainAurora (HK) Medical Technology Limited
10.	C2iTech Limited
11.	Codex Genetics Limited
12.	Comfiknit Limited
13.	DRESIO Limited
14.	Eyebright Medical Technology (Hong Kong) Co., Ltd
15.	Eieling Technology Limited
16.	ExaApp Limited
17.	Hopebotics Limited
18.	Massphoton Limited
19.	Medmind Technology Limited
20.	OPH HEALTH LIMITED
21.	Orange Biotech Limited
22.	OUR United (HK) International Corporation Limited
23.	PanopticAI Limited
24.	Pantheon Lab Limited
25.	RHT Industries Limited
26.	Sharpsight Limited
27.	Sramek Insight Limited
28.	Telefield Medical Imaging Limited
29.	Torrus Limited
30.	Novelte Robotics Limited

###

About Hong Kong Science and Technology Parks Corporation

Hong Kong Science and Technology Parks Corporation (HKSTP) was established in 2001 to create a thriving I&T ecosystem grooming 13 unicorns, more than 15,000 research professionals and over 2,300 technology companies from 25 countries and regions focused on developing healthtech, AI and robotics, fintech and smart city technologies, etc.

Our growing innovation ecosystem offers comprehensive support to attract and nurture talent, accelerate and commercialise innovation for technology ventures, with the I&T journey built around our key locations of Hong Kong Science Park in Pak Shek Kok, InnoCentre in Kowloon Tong and three modern InnoParks in Tai Po, Tseung Kwan O and Yuen Long realising a vision of new industrialisation for Hong Kong, where sectors including advanced manufacturing, micro-electronics and biotechnology are being reimaged.

Hong Kong Science Park Shenzhen Branch in Futian, Shenzhen plays positive roles in connecting the world and the mainland with our proximity, strengthening cross-border exchange to bring advantages in attracting global talent and allowing possibilities for the development of technology companies in seven key areas: Medtech, big data and AI, robotics, new materials, microelectronics, fintech and sustainability, with both dry and wet laboratories, co-working space, conference and exhibition facilities, and more.

Through our R&D infrastructure, startup support and enterprise services, commercialisation and investment expertise, partnership networks and talent traction, HKSTP continues to contribute in establishing I&T as a pillar of growth for Hong Kong.
