HKSTP Showcases Hong Kong Tech Firms at InnoEX 2026

Pavilion highlights market-ready innovation across AI, digital transformation, electronics and robotics and life & health tech to drive partnerships and investment

(Hong Kong, 14 April 2026) – Hong Kong Science and Technology Parks Corporation (HKSTP) today brought 16 park companies to InnoEX 2026, one of Asia’s premier innovation and technology exhibitions, staging a showcase at the HKSTP Pavilion that highlights its ecosystem’s growing pipeline of market-ready solutions and real-world applications across four key innovation fields: artificial intelligence, digital transformation, electronics and robotics and life & health tech.

The line-up demonstrates the latest progress made by Hong Kong tech companies in technology translation, commercial deployment and cross-sector collaboration. In the first two days since the exhibition opened, the HKSTP Pavilion has attracted dozens of international brands, industry leaders and investors to explore the latest innovations, and potential collaboration opportunities.

Derek Chim, Head of Startup Ecosystem and Development, HKSTP said, “InnoEX is the most anticipated innovation and technology exhibition in Asia, we are proud to be here with our park companies that exemplify Hong Kong’s capacity to develop, refine and commercialise world-class innovations. Through a series of startup and business matching activities running alongside the exhibition, we aim to connect our companies with buyers, investors and strategic partners, accelerating commercialisation and market expansion, and helping to project Hong Kong’s innovation achievements onto the global stage.”

HKSTP park companies excelled at the 11th Hong Kong Technology Value Creation Competition, China Beidou Aerospace Information Limited, Reunite Limited and Scan the World Limited won the Merit Award. These awards validate their tech strength and market potential, attracting angel investors and laying a solid foundation for commercialization and funding.

To further connect participating companies with market opportunities, HKSTP hosted a dedicated Startup Smart Launch session at InnoEX 2026, providing exhibiting companies with a focused platform to present their innovations to a targeted audience of industry stakeholders, helping park companies accelerate the commercialisation of their innovations and scale their businesses beyond local market.

Additionally, 10 park companies exhibit at the world-class Hong Kong Electronics Fair (Spring Edition). By participating in these two flagship exhibitions, HKSTP showcases Hong Kong’s I&T strengths and creates more potential business and investment opportunities for innovation and technology companies, supporting park-based tech firms in expanding their operations.

InnoEX 2026

Date: 13–16 April 2026

Venue: Hong Kong Convention and Exhibition Centre, 1 Expo Drive, Wan Chai

HKSTP Pavilion Booth No.: 3C-B01

Photo 2: HKSTP brings 16 local innovation and technology companies to InnoEX 2026, showcasing a diverse range of innovation solutions and application scenarios across AI, digital transformation, electronics and robotics, and life & health tech.

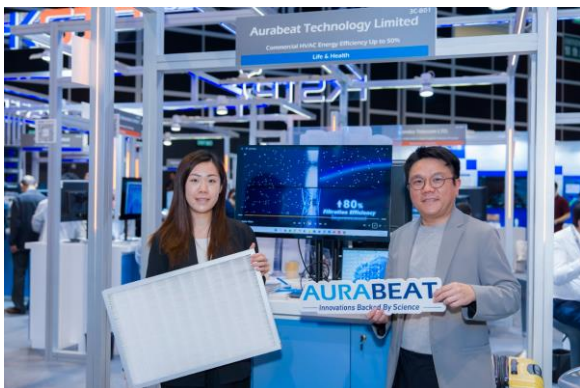

Photo 3: **Energy-efficient air filtration technology advancing public health** – Developed by Aurabeat Technology Ltd., this intelligent, energy-saving air filtration solution significantly improves the operating efficiency of existing building air-conditioning and filtration systems. The solution offers commercial and industrial facilities a green air management solution that balances performance with health protection.

Photo 4: **AI Digital Avatars and Intelligent Customer Service** – Innocorn Technology Ltd.'s all-in-one AI service platform integrates digital avatars, AI LLM chatbots, voice customer service and physical service robots, delivering seamless omnichannel interactions for enterprises while driving down operational costs.

Photo 5: **Interactive AI Solutions for Healthcare, Education & Corporate Services** – MedMind Technology's NeuroGym and PhysioPlay use culturally grounded games (mahjong, calligraphy) and motion-sensing interaction for cognitive and physical training, supported by automated analytics for real-time personalized reporting. The ecosystem also includes AI Voice Care and AI Avatar systems, serving hospitals, rehabilitation centres, home care, education, as well as corporate functions such as promotion, customer engagement, wellness programmes, CSR, and ESG initiatives.

Photo 6: **Post-quantum cryptography and Chip-Level Blockchain** – Real Matter Technology Ltd.'s post-quantum cryptography (PQC) and chip-level blockchain solutions equips IoT devices and digital infrastructure with next-generation encryption capable of withstanding quantum computing threats, with applications spanning finance, supply chain and smart city deployments.

Photo 7: **Immersive 3D e-commerce accelerating retail digital transformation** – Reunite Ltd. integrates 3D visualisation, immersive e-commerce and automated content production to create highly interactive shopping experiences for consumers.

Photo 8: **AI Video Analytics for Smarter Crowd and Traffic Management leveraging the existing CCTVs** – Developed by SOCIF Ltd., this AI video analytics system delivers real-time intelligent monitoring, tracking and data analysis of pedestrian and vehicle flows, supporting government agencies and enterprises across urban traffic management, commercial space operations and public safety with data-driven decision-making capabilities.

Appendix 1: List of Park companies exhibiting in InnoEX 2026

1. Aiilog Limited
2. Aurabeat Technology Limited
3. China Beidou Aerospace Information Limited
4. Comba Telecom Ltd.
5. GPTBots Hong Kong Limited
6. GUTolution Limited
7. Innocorn Technology Limited
8. MedMind Technology Limited
9. Pantheon Lab Limited
10. PipeScan AI Limited
11. Real Matter Technology Limited
12. Reunite Limited
13. Scan the World Limited
14. SOCIF Limited
15. TapData Hong Kong Limited
16. Weitu AI HK Limited

Appendix 2: List of partner companies exhibiting at the Hong Kong Electronics Fair (Spring Edition)

1. Asiabots Limited
2. GreenSafety Technology Limited
3. Locker Food Limited
4. PowerArena Limited
5. Bistrochat Software Limited
6. Mezzofy Holding Limited
7. NFC Touch Limited
8. Travis Group Limited
9. eSIX Limited
10. Skyland Innovation Company Limited

About Hong Kong Science and Technology Parks Corporation

Hong Kong Science and Technology Parks Corporation (HKSTP), established in 2001, has built a thriving innovation and technology (I&T) ecosystem in Hong Kong, supporting 12 unicorns, nurturing over 16,000 research talents, and hosting more than 2,400 technology companies from 25 countries and regions specializing in biomedicine, AI and robotics, fintech, and smart city development. HKSTP is dedicated to positioning Hong Kong as an international I&T hub.

To align with Hong Kong's future development, HKSTP is committed to attracting and cultivating I&T talent, accelerating the commercialization of innovative outcomes, and providing comprehensive support for technology companies and professionals on their innovation journey. Its vibrant I&T ecosystem continues to grow, encompassing Hong Kong Science Park in Pak Shek Kok, InnoCentre in Kowloon Tong, and three InnoParks in Tai Po, Yuen Long, and Tseung Kwan O. These facilities drive advancements in applied technology, focusing on industries such as advanced manufacturing, micro-electronics, and biotechnology, steering Hong Kong toward new industrialization.

Hong Kong Science Park Shenzhen Branch, located in Futian, Shenzhen, leverages the strategic advantage of “support of the Motherland, connecting to the world.” It serves as a bridge for “bringing in and going global,” actively fostering cross-border I&T collaboration. The Shenzhen Branch supports global technology companies and professionals by providing research and collaboration spaces, with a focus on enterprises in seven key sectors: Medtech, big data and AI, robotics, new materials, microelectronics, fintech, and sustainable development.

HKSTP is dedicated to advancing Hong Kong’s I&T development by providing research infrastructure, startup and enterprise support services, professional investment and business expertise, fostering partnership networks, and attracting top talent. These efforts drive innovation as a new engine for economic growth for Hong Kong.

More information about HKSTP is available at www.hkstp.org.
