無時無刻讓人關心家庭的智能發明 A Smart Invention for 24/7 Personal Home Care

GreenPeak 成立於 2005 年，他們利用尖端的 ZigBee 技術建立智能家居和物聯網生態系統，除可透過雲端遙控家電、管理能源加強節能效益，還可作家居監察、出入管制，以及火警氣體洩漏警示。這平台更提供家居方案，讓家中成員可互相交換即時實況，作為家裡的「平安鐘」，有助遙距關心家中老少……

Founded in 2005, GreenPeak builds Smart Homes with an IoT ecosystem based on the top-notch ZigBee technology. Apart from controlling your home appliances remotely and managing energy consumption via cloud services, GreenPeak also enables home monitoring, access control, fire and gas leakage detection. Its console even offers a Family Lifestyle Solution that empowers both children and their elderly family members to privately and securely share lifestyle information, and allows family members to know their real-time status.

* GreenPeak 於 2014 年進駐科學園，負責拓展亞太地區業務。如欲瀏覽更多資料，請掃描 QR 碼。

* GreenPeak has its office in Hong Kong Science Park for developing Asia-Pacific business since 2014. More information is available by scanning the QR code.
