以專利科技去除人聲變 K 歌之王 iMusic Box: Multi-Functional Karaoke Machine with Vocal Removal Technology

要唱 K ? 最簡單莫如拿出這台由科韻動力有限公司研發的 iMusic Box 了。這是具多功能性控制和專利技術的優質迷你立體聲揚聲器，只需把它連接到智能手機或平板電腦，透過卡拉 OK 應用程式即可大唱特唱；內置的智能芯片還有專利的一鍵實時「去除人聲」技術，選好 MV 短片，用戶即可按鍵去除本來人聲而自己演繹，更可錄下慢慢欣賞。該技術榮獲 41 屆日內瓦國際發明展金獎及羅馬尼亞國民教育部大獎。

iMusic Box designed and developed by iMusicTech is the easiest way to throw a Karaoke party! It is a universal and multi-functional compact stereo speaker that lets you sing to any video or song you find. Simply connect it to your smartphone or tablet via Bluetooth, open the Karaoke app and you can sing without the vocal. Its built-in intelligent chip comes with the patented Vocal Removal technology that can be activated by pushing a button. Pick your favourite music video and activate Vocal Removal. Then you're ready to record your very own performance of the song to share it with your friends. In 2013, the technology won a Gold Medal and a major prize from the Ministry of National Education, Romania in the 41st International Exhibition of Inventions of Geneva.

* 科韻動力有限公司成立於 2008 年，曾參加科學園科技創業培育計劃。如欲瀏覽更多資料，請掃描 QR 碼。
