多功能智能單車速度計 SpeedNite: Multifunctional Bike Speedometer

網聯科技有限公司專門為單車設計及開發創新的智能配件。展示中的「SpeedNite」是一個單車用的智能車速計，除了專門計算車速外，它更具備照明系統及防水功能。單車愛好者在晚上踩單車時，可利用iOS或Android系統的智能程式輕鬆調節照明效果，它還配備了GPS的功能，要找路毫無難度。此外，它應用了藍牙技術來偵測心率，尤其適合單車運動員，或是進行其他運動訓練的人士。

Mega Unit Technology Limited specializes in designing and developing innovative smart accessories for bicycles. On display here is SpeedNite, a smart bike speedometer that not only measures how fast your bike goes, but also doubles as a waterproof headlamp. When connected with iOS or Android apps, night cyclists can easily switch between lighting effects. Furthermore, it also comes with GPS system to navigate your way in the dark. SpeedNite also measures your heart rate with Bluetooth, making it the indispensable training partner for cyclists or athletes.
