ActivHearts™ 耳機準確量度心率為健康把關 ActivHearts™ Earphones Measure Your Heart Rate

衛保數碼有限公司為移動醫療 / 可穿戴設備等提供實惠和精確的核心技術，是亞洲僅有採用光電容積描記 (PPG) 方式，開發精確心率檢測技術 ActivHearts™ 的公司，適用於耳機、手錶和手環等產品。他們開發的另一技術 Mogo™，更是目前全球最準確的動作感應和識別技術之一，已通過亞洲一頂尖大學的驗證。他們擁有超過 20 項發明專利，現正與多個頂級品牌合作優化產品，如耳機、手環及智能手機的傳感器集線器等。

Well Being Digital Limited (WBD101) provides affordable and high-precision underlying technologies for mobile health and wearable devices. It is one of the very few companies in Asia that uses Photoplethysmography (PPG) to accurately measure heart rate. The technology is christened ActivHearts™ and can be applied to earphones, wrist watches and bracelets. Another technology known as Mogo™ is one of the world's most accurate motion sensing and recognition technologies and has earned accreditation from a top university in Asia. WBD101 has filed over 20 patents and is collaborating with a number of top international brands on improving their products including earphones, bracelets, and sensor hubs in smartphones.
