智能恆溫器遙控節能兩成

Innovative WiFi Smart Thermostat Helps to Save at least 20% of Energy

WiSave S.r.l. 公司是意大利 Italeaf 集團的成員，他們所生產的 Algo 系統，是由一個或多個 WiFi 恆溫器組成，由名為「Core System」的軟件連接、控制及管理。「Core System」以互聯網連接至網上伺服器，故可遙遠控制恆溫器以提高空調系統的效能，可有效節省最少兩成的電力。

WiSave S.r.l. (a company under the group Italeaf S.p.A) produces Algo System which is made up of one or more WiFi thermostats that communicate with a control and management software named “Core System”. Core System interfaces to a web-server through Internet. It is the innovative remote-managed thermostat for increasing the efficiency of heating and cooling systems, which can save at least 20% of heating and cooling energy.
