## 輕鬆打造智能家居 Easy Solutions for Smart Homes

「智能家居」一詞據說已出現了20多年，但要打造一個方便自己和家人的智能家居，是否真的需要找像電視廣告中穿整齊制服兼背一身電線的工程人員？Bluegic的出現相信可以加快「智能家居」的普及，因為嶺勤科技有限公司的產品正採用了化繁為簡兼聰明的技術，配合現時幾乎每人有一部智能電話或平板電腦的情況，並透過藍牙技術控制開燈關燈、開關電掣及窗簾等，人未到燈先亮……確實智能兼節能！

The term “smart home” has been around for over 20 years. But to build yourself a smart home that offers convenience to your family, must you call those uniformed technicians with a chunky roll of wire on their shoulders just like the TVC? Bluegic offers a better solution to make your home smart easy-breezy. linCogN Technology Company Limited uses smart technologies on Bluegic to simplify the setup, you can use your smartphone or tablet to control lighting, home appliances and curtains via Bluetooth. No more leaving the lights on when you're out. Truly an intelligent system that saves energy.
