## 裸眼3D科技加添生活色彩

## Immersive Media Experience without Awkward 3D Glasses

看3D電影和玩3D電子遊戲實在能夠倍增視覺享受和刺激，但需加上一副特製的眼鏡，對四眼一族而言，尤其會感到有點負擔！在萬維數碼有限公司的科研團隊努力下，現在以他們出品的平板電腦看3D電影和玩3D遊戲時，不必再戴上3D眼鏡了。這種「裸眼3D」科技更已應用於智能手機上，以後不單可以欣賞3D遊戲和娛樂節目，還可用它來拍攝出有3D效果的照片和片段，再平凡的生活也可因此躍動起來了！

Watching movies and playing video games in 3D do offer more compelling visual pleasure and excitement. But according to researches, those 3D glasses are major turnoffs for many, especially those glasses wearers. With Glasses-free 3D technology developed by Marvel Digital Limited, you can lose those pesky specs while immersing yourself in life-like 3D games and movies. The technology is available on tablet computers, and recently, on smartphones. Not only can you download your favourite shows and games in 3D, but also take photos and shoot videos in 3D. Your life will never be the same.
