

Hong Kong Science and Technology Parks Corporation

Connect Stakeholders

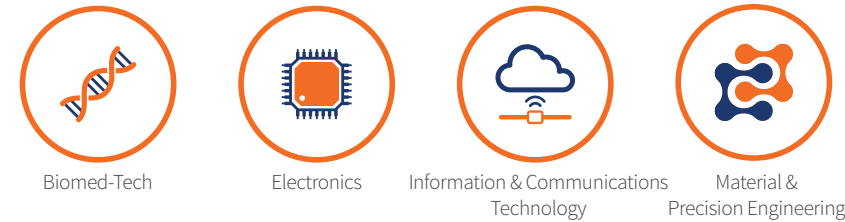

HKSTP hosts series of conferences on global technology trends for academia, technologists, regulatory bodies to exchange views and drive policy changes; investor forums to connect technology companies with angels and venture capitalists for funding; trade missions and innovation showcases to bridge innovators with business partners. Our TecONE service center also provide one-stop support to all who need advice on looking for research and channel partners, IP registration support and funding for R&D; while our community membership, SPARK, provides networking opportunities for like-minded technology talents to mingle and seek collaboration partners through social and knowledge enhancement events; and our Smart Living Showcase demonstrates latest inventions by technologists at Science Park for public and potential buyers to explore.

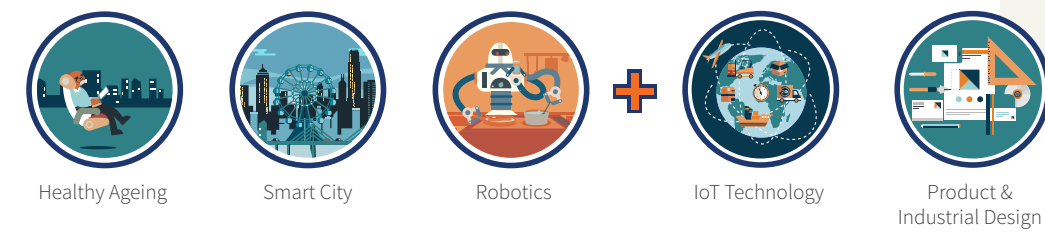

Industry Focus

‘Connecting the dots’ - we drive for collaboration amongst innovators, investors, universities, R&D institutions, regulators, as well as corporate and industrial partners to shape our future. We enable innovators to leverage on Hong Kong’s world class talent pool, unique R&D environment, excellent IP protection and legal framework, as well as access to the huge Mainland China market to catalyse their innovations and build strong business momentum.

5 Technology Clusters

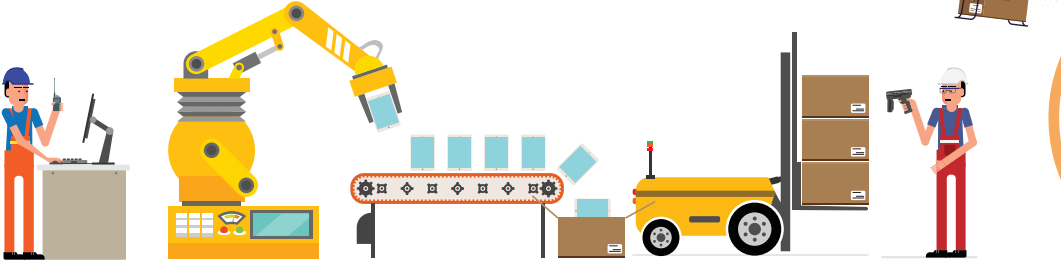

3 Application Platforms

Advanced Manufacturing

Drive export growth and build a diversified economy

A Vibrant Ecosystem

Hong Kong Science and Technology Parks Corporation (HKSTP) is committed to connecting stakeholders to build a vibrant innovation and technology ecosystem

Accelerate Innovation & Commercialisation

HKSTP provides excellent R&D environment with Robotic Garage and 11 shared laboratories for development of new ideas and let innovators test their prototypes and innovations under ‘First@ Science Park’ programme; accelerates their commercialisation by connecting them to enterprise customers through ‘Technologies from Science Park’. We also facilitate them to reach business partners through international exposures and raise their profile through nominations to international competitions.

Facilitate Knowledge Transfer

We aggregate a strong portfolio of over 680 technology companies along 5 technology clusters to facilitate knowledge transfer from local and international universities, and explore collaboration across a mix of multinationals, small-medium sized operations, and start-ups at Science Park; and facilitates innovators, researchers, designers and industrialists to work together in exploring solutions along 3 application platforms that will shape our future.

Nurture Talents

Our Incubation Programme, recognised as the Best Technology Incubator of the Year 2016 by InBIA, provides full range of support to help groom start-ups to success. To groom future talent pool, we inspire students’ interests in STEM through education fairs, competitions and workshops. We are committed to let young talents gain a flavor of the technology world and job prospect through internship programmes and Career Expo.

Hong Kong – Where Business Goes to Grow

From large multinational companies like Arrows and TCL, to leading research organisations like Karonlinska Institutet, to innovative small medium sized companies and numerous start-ups who wants to explore the Asian market, Hong Kong provides the perfect environment for them to springboard to success.

Source R&D Talent

- Internships
- Talent pool platform
- Career fairs
- Hackathons
- Accelerator programme

Recognition

- Media coverage
- Product launch
- Award nominations

Funding Support

- Connect angels & VC investors
- Corporate Venture Fund
- Grant application support
- IPO support

Connect Collaborate Catalyse

Business Support

- Technology from Science Park
- Business Training
- Mentorship
- Soft landing centre
- Free consultation at TecONE
- Global market access (Trade shows)

R&D Resources

- IP services
- Laboratories
- Connect with universities and R&D institution

Market Intelligence

- Thought leadership conference
- Market benchmarking
- Technology conferences

Operation Capacity

- R&D office and lab space at Science Park to grow from 3 million sq.ft. to 3.8 million sq.ft. by 2019
- Advanced manufacturing facility of about 1.5 million sq.ft. at Tseung Kwan O Industrial Estate
